

# IRONWOOD branch spools

$\frac{1}{2}$ " inch to  $1\frac{1}{2}$ " inch thick dowel or branch  
Cut the dowel into several pieces - one for each spool.

Your cut should be at least  
 $\frac{1}{2}$ " thick and 3-4" wide across.  
The wider the piece, the more  
string, yarn, or ribbon you can  
store per spool.

Add a hook (screw it in) and you can  
hang me from the underside of  
your shelf.

Put lots of string,  
yarn, rope, or ribbon  
around me.
